

Seeking Nuclear Waste Community Advisory Committee Member

Early in 2012 the Township of Huron-Kinloss started learning more about Canada's plan for the long-term management of used nuclear fuel, which is the responsibility of the Nuclear Waste Management organization (NWMO). The plan, named Adaptive Phased Management requires that the used fuel be safely and securely contained and isolated from people and the environment in a deep geologic repository in a suitable rock formation.

The Township of Huron-Kinloss is currently in Step 3 - Preliminary Assessment of Potential Feasibility – Feasibility Studies. On May 22, 2013 Council appointed the members of the Nuclear Waste Community Advisory Committee. The advisory committee works with the NWMO and the community of Huron-Kinloss in the process of gathering information regarding the possibility of siting of a high-level nuclear waste Deep Geologic Repository (DGR) in Huron-Kinloss.

A vacancy has occurred on the seven member Nuclear Waste Community Advisory Committee. Township Council is seeking one interested and open-minded resident to voluntarily participate on the Community Advisory Committee to facilitate community engagement and assist with activities and events related to the Site Selection process. For more details on the committee mandate and structure, By-Law 2013-43 that establishes the committee can be viewed on the Township website at www.huronkinloss.com or is available at the Township office. Interested individuals should send a resume and detailed letter of interest outlining reasons why they would be a suitable candidate for the committee to the Administrator by November 27th, 2014. Only those parties selected for an interview will be contacted.

Mary Rose Walden, Administrator
Township of Huron-Kinloss
P.O. Box 130, 21 Queen Street
Ripley, ON
